Dear 11th grade parents,

This week's goal is to familiarize students with the Mathematics portion of the CAASPP/SBAC assessment.

Students can access the Practice and Training Tests by visiting:

- CAASPP.org and clicking on the [Practice and Training Tests](#) button.
- On the next screen, click on the green picture to access the Student Interface.
- Students will use a guest login on the next screen to access the tests.
- Select 11th grade and click Yes.
- Choose either the High School Mathematics Performance Task, Practice, or Training Test.
 - Practice Tests are designed to show the content. Training Tests use the same types of questions to show question differentiation and available supports.

In addition, we have included the [link to the scoring rubrics](#) for students to review.

Sincerely,
SDA CAASPP Team
